Dear Justin,

I want to express my appreciation for the partnership between CIS and Scent2Market over the past 5 years as well as with my previous company. When I left that company, and created the new company, Scent2Market, we knew we had the right IT partner to support us. CIS handled all aspects of the office move as well as designing and building the data center for the new company.

Over the years your team has provided expert level services around Cisco, VMware, SQL, SharePoint and Active Directory and most recently your team assisted us with combating a very serious malware attack. You got us back online within a day and restored all data safely.

The CIS technical team is second to none and has proven themselves repeatedly. Your quick response to critical issues has helped Scent2Market on numerous occasions and we feel very comfortable knowing that CIS is there for us when we need them.

Sincerely,

Brent Pope
