Mr. Todd Hershman

Re: "A Big Thanks to CIS!"

Hi Todd,

I just wanted to drop you a note and say thanks again for all the great work and support that CIS has provided my staff and me for a quarter of a century.

CIS recently helped us complete a few projects which included the implementation of DUO MFA and an Infrastructure Security Analysis. As usual, all went extremely well. CIS has spearheaded dozens of projects for us in numerous areas of the technical spectrum through the decades. Every undertaking has finished on time and on budget!

The scope of the work has completely changed through the years, as well as the types of business needs that my firm requires, however, what has not changed is the elite white glove service that we continue to receive from CIS. CIS brings experienced engineers and an unmatched level of service & professionalism to the table every time. They take pride in their work and have always exceeded my expectations.

We truly appreciate having a trusted advisor like CIS in this ever-changing technology world. Todd, your oversight, and continued commitment to LCBF are greatly appreciated.

We look forward to our continued partnership with CIS.

Best Regards,

Salvatore A. Galluccio
Director of Information Technology
