Mr. Justin Tuchman  
Computer Integrated Services  
561 Seventh Avenue, 13<sup>th</sup> Floor  
New York, NY 10018

Dear Justin,

I am writing this letter to thank you and the entire CIS team for all the great work you have done for Philadelphia Gas Works over the last 12 years. The expertise that CIS engineers have brought to the table to assist us with several NetIQ IDM, Sentinel and Microsoft SharePoint projects, has been more than outstanding. Especially around the NetIQ product portfolio, I cannot think of another consulting firm offering a comparable level of expertise that is this easily accessible.

As you know, we are very hands-on here at PGW, but the skillset of your engineers cannot be matched by our own engineers or consultants hired through temporary staffing services. When working on projects with other consulting firms in the past, I frequently found myself dealing with engineers with a somewhat narrow skillset that was very limited to the product they were working with. This is not the case with CIS. Your engineers are extremely knowledgeable, understand the big picture, and are always eager to help, even during afterhours or for time sensitive requests.

It is a real benefit to have a group that is so knowledgeable and responsive and we look forward to working with CIS on future projects.

Again, I want to thank CIS and the entire engineering team for all the excellent work and I highly recommend CIS to anyone that needs IT support.

Sincerely,

A handwritten signature in black ink, appearing to read 'F. Weigert', written in a cursive style.

Frank Weigert  
Director Technical Services  
Philadelphia Gas Works
